

YOU Can Be A Lifesaver!

8,007

...is the staggering number of animals (out of 12,144 taken in) that were **destroyed in June, 2004**, in 21 Metroplex-area city animal shelters. City shelters have no other option but to kill the animals that are not rescued or adopted. Remember that 8,007 is only a fraction of the total number of animals destroyed that month. Countless other stray animals roam the streets, searching in vain for food & shelter. Many either starve or are killed. The problem of animal overpopulation is monumental & affects us all. The responsibility to solve this problem lies with each one of us.

HERE'S HOW YOU CAN HELP:

ADOPT A RESCUE PET

Pure breeds, mixed-breeds, puppies, kittens, adults, plus rabbits, ferrets & much more... you can find them all at one of the groups listed below or at city animal shelters. Not only will you find a best friend, you'll also save a life. Contact a rescue group in your area & give a deserving animal a 2nd chance.

SPAY & NEUTER PETS

Spaying (females) & neutering (males) is a simple medical procedure that will prevent unwanted litters of animals. Before you decide to have "just 1 litter" or make a few bucks by selling animals as a side business, consider the statistics above. Low-cost clinics are available. Call HSUS at 214.372.9999.

FOSTER & VOLUNTEER

We can only rescue as many animals as we have room & staffing for. Fosters are **desperately** needed to house & care for rescued animals, until they are adopted. Volunteers are also needed for a large variety of tasks. Contact the group or shelter of your choice today for more information.

\$\$\$ DONATE \$\$\$

Adoption fees rarely cover the vet costs incurred to save an animal. Your **tax-deductible donation** to a non-profit rescue organization can literally help save a life. The groups listed below have sponsored this ad and need your support.
