

# A Few Facts About Fabulous Felines...

*"Please Keep Me Safely Indoors."*

The great outdoors poses a multitude of threats to your cat's safety: being hit by a car, killed by another animal, tormented & abused by neighborhood kids, stolen, or unknowingly carted across town in a service tech's van that the cat has decided to hide in. Additionally, outdoor cats are at risk for contracting deadly heartworm disease (carried by infected mosquitoes). One bite on your cat's nose is all it takes to contract heartworm disease and there is currently no life-saving treatment available for cats.

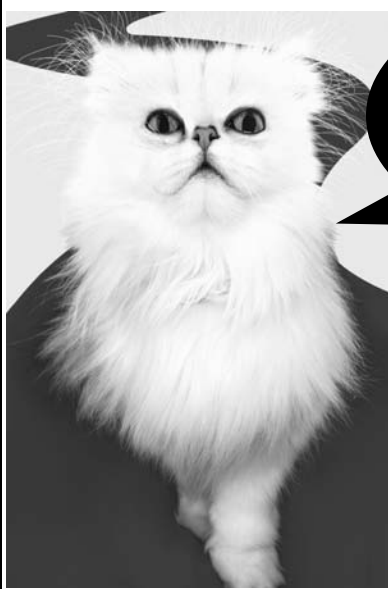

*"Give Me The Big Snip."*

The kindest thing you can possibly do for your cat is to spay/neuter at the earliest opportunity. Did you know that the descendants of just 2 unaltered cats can theoretically number **420,000** in just 7 years? Approximately 71% of cats & kittens entering city shelters nationwide are destroyed every year. Spaying/neutering prevents potential health problems in your cat & helps curb many behavioral issues as well. It just makes sense all the way around.

*"I Just Wanna Have Fun."*

Cats are social creatures who do well with feline companionship. They like having a friend to play with, as well as love & companionship from their humans. Cats also enjoy a good, long healthy stretch on a scratching post of adequate height (which also helps protect your furniture). Provide your feline family member with the happiest, healthiest life possible with proper medical care (including annual veterinary exams, shots, testing) & a well-balanced, healthy diet. Remember...your cat is depending on you!

## \*June Is "Adopt-A-Cat" Month!\*
