## Do You Think These Terms Describe Most of the Animals In City Shelters?

### THINK AGAIN.

Take a Look at Just a Few of the Animals We Have Found, Sitting on Death Row, at DFW-Area City Animal Shelters:

Many people think (or like to think) that the only animals who wind up in city animal shelters are those that have some sort of flaw that makes them "unadoptable". In reality, thousands of animals that are destroyed every month in DFW-Area animal shelters were once someone's beloved pet.

The main reason these "former beloved pets" find themselves homeless is due to the irresponsibility of their owners. Animals become disposable to their human families for an endless list of reasons, through no fault of their own. Thousands of delightful, beautiful animals like these lose their lives every month.

The happy, fuzzy faces you see in this ad are a few of the lucky animals who were rescued before their time ran out. Some have already found permanent homes. Others are waiting to be adopted. Countless dogs, PUPPIES, cats, KITTENS - MANY PURE BREEDS and lovable mixed breeds are still waiting in shelters.

An excellent place to find your new pet is at a city shelter. Many animals are already spayed/neutered, and vaccinated. Some shelters do heartworm tests and microchipping for a nominal fee. Many shelter animals are already housetrained and know obedience commands. All they need are loving homes.

Rescue organizations are another wonderful place to find your new pet. You can find a private rescue group for just about any breed of dog you can think of, as well as groups who rescue all breeds. All the animals pictured in this ad now have a bright future because of the rescue groups listed below.

Before you buy an animal from a backyard breeder, flea market or pet store, remember that doing so only adds to the problem of animal overpopulation. Be a part of the SOLUTION, not a part of the the problem. OPT TO ADOPT. SUPPORT ANIMAL RESCUE WORK. By doing so, you are helping to save a life.
